OBJECTIVE

Motivated Computer Science undergraduate with hands-on experience in developing web-based applications using ASP.NET Core MVC, C#, PHP, HTML, CSS, and relational databases including SQL Server, MySQL, and Oracle. Experienced in building academic and personal projects, implementing database-driven solutions, and utilizing GitHub for version control. Seeking an internship or entry-level software development opportunity to apply my technical skills, contribute to real-world projects, and further enhance my expertise in modern software engineering practices.

EDUCATION

American International University-Bangladesh

Bachelor of Science in Computer Science & Engineering | CGPA: 3.79

2022 – Present

Dhaka, Bangladesh

Dr Mahbubur Rahman Mollah College | GPA: 5.00

Higher Secondary Certificate

2020 – 2021

Dhaka, Bangladesh

Murapara Govt. Pilot High School | GPA: 5.00

Secondary School Certificate

2018 – 2019

Rupgnaj, Narayaganj Bangladesh

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C, C++, C#, JavaScript, PHP, R
- **Frameworks:** ASP.NET Core MVC, .NET Framework
- **Web:** HTML5, CSS3, Bootstrap
- **Databases:** SQL Server, MySQL, Oracle Database
- **Version Control:** Git, GitHub
- **Concepts:** OOP, MVC Architecture, Database Design, CRUD Operations, REST API Development

PROJECTS

[GitHub](#)

Salon Management System | ASP.NET Core MVC, C#, MS SQL Server

- Developed a web-based Salon Management System for customer, appointment, staff, service, and payment management.
- Applied MVC architecture and OOP principles to build a scalable and maintainable application.
- Integrated SQL Server with Entity Framework Core and implemented CRUD operations..
- Managed source code using Git and GitHub while following professional software development and documentation practices.

[GitHub](#)

Pharmacy Management System | C#, .NET Windows Forms, SQL Server

- Developed a Pharmacy Management System to manage medicines, customers, pharmacists, and sales operations.
- Built administrator and pharmacist dashboards for inventory, medicine validity, customer, and sales management.
- Implemented SQL Server and ADO.NET integration with CRUD operations and user authentication.
- Applied OOP, event driven programming, and software design principles to develop a scalable desktop application.

[GitHub](#)

Online Quiz System | PHP, MySQL, JavaScript

- Developed a web-based Online Quiz System with role-based modules for administrators, teachers, and students.
- Implemented quiz creation, question bank management, automated result calculation, user authentication, and performance tracking.
- Integrated PHP, MySQL (phpMyAdmin), and CRUD operations for secure data management.
- Utilized MVC design principles and front-end technologies to deliver a structured, maintainable, and user-friendly educational platform.

[GitHub](#)

StudyFlow (Student Productivity Management System) | PHP, MySQL, HTML5, CSS3, MVC

- Developed a Student Productivity Management System using PHP, MySQL, and MVC architecture.
- Implemented secure authentication, profile management, and complete CRUD operations for tasks, subjects, notes, and study sessions.
- Designed a responsive dashboard with productivity statistics and recent activity tracking.
- Built a relational MySQL database using prepared statements and session-based authentication.
