CAREER OBJECTIVE

Final-year Computer Science and Engineering student at American International University-Bangladesh (AIUB) with hands-on experience building full-stack web applications using PHP, React, C#, MySQL, and MVC architecture. Passionate about software engineering, problem solving, and building scalable applications. Seeking a Software Engineering Internship where I can contribute to real-world products, learn from experienced engineers, and grow as a software engineer.

EDUCATION

Bachelor of Science (BSc) in Computer Science & Engineering

American International University-Bangladesh (AIUB)
CGPA: 3.79/4.00 | Expected Graduation: 2026

PROJECTS

1. StudyFlow — Student Productivity Management System | PHP, MySQL, HTML5, CSS3, MVC

Designed a responsive productivity dashboard with secure authentication and full CRUD operations for tasks, subjects, notes, and study sessions, backed by a relational MySQL database with prepared statements.

[GitHub](#) | [Live](#)

2. Forkful — Recipe Finder | React, Vite, REST API

Developed a responsive recipe discovery web application with recipe search, favorites, reusable React components, GitHub Actions CI/CD pipeline, and automated deployment to GitHub Pages.

[GitHub](#) | [Live](#)

3. Salon Management System | ASP.NET Core MVC, C#, MS SQL Server

Built customer-facing and admin views using Razor/HTML/CSS within an MVC architecture, backed by SQL Server via Entity Framework Core, with full CRUD operations.

[GitHub](#) | [Live](#)

4. DevConf 2026 — Conference Landing Page | HTML5, CSS3, Bootstrap 5, JavaScript

Converted a Figma/Penpot UI design into a fully responsive landing page with a live countdown timer, a validated registration modal, and REST API-driven form submission, tested across mobile, tablet, and desktop breakpoints.

[GitHub](#) | [Live](#)

5. Online Quiz System | PHP, MySQL, JavaScript

Built role-based front-end views for admin, teacher, and student roles with JavaScript-driven interactions, backed by a PHP/MySQL MVC structure.

[GitHub](#)

6. Pharmacy Management System | C#, .NET Windows Forms, SQL Server

Developed a desktop application demonstrating OOP and event-driven design, with SQL Server/ADO.NET integration and full CRUD operations.

SKILLS

Programming Languages: JavaScript, C#, PHP, Java, Python, C, C++, R, Shell Scripting, LaTeX

Web Technologies: HTML5, CSS3, Responsive Web Design, REST APIs, DOM Manipulation

Frameworks: React, Vite, ASP.NET Core MVC, .NET Framework, Bootstrap

Database Management: SQL Server, MySQL, Oracle Database

Tools & Platforms: Git, GitHub, VS Code, XAMPP

Concepts: REST API Integration, MVC Architecture, CRUD Operations, OOP, Figma-to-Code Conversion, Debugging, Testing.

Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability, Time Management, Quick Learning Ability
